SIR,

With reference to your reminder dated 10.1.1931 on Memorandum No.43841-1 E.P.H., dated 19.11.1930 and G.C.No. 1929 P.H.Ms. dated 5.8.1930 and in continuation of this office reply C.R.No. 1338/30 dated 1-12-30 I have the honour to submit herewith a copy of letter C.R.No. 650/30 dated 15-8-1930 of the President, Taluk Board, Hospet for information. I have already reported in detail on the several points raised in the recommendation of the Special Malarial Officer on anti-malarial investigations in certain villages of Hospet taluk. The Taluk Board is unable to carry out the sanitary improvements suggested in the report owing to its financial difficulties nor is the District Board rich enough to undertake the business. It is therefore requested that the Government may be pleased to sanction a liberal subsidy for executing the plan of work as proposed in this office Dis.No. 118/30 dated 25-2-1930 when the scheme will be undertaken.

From the President, Taluk Board, Hospet C.R.No. 650/30 dated 15-8-1930.

I have the honour to bring to your kind notice that the Director of Public Health, Madras - on the report of the Special Malarial Officer, Madras - urges on me to see to the wide spread distribution of quinine and the maintenance of channels in a sanitary state for improving the health conditions of the people.

In this connection I have to state that the work of ~~free~~ free distribution of quinine is being done by the Health Department, the schoolmasters and the Revenue authorities. As regards the maintenance of channels I request you to be good enough to address the Executive Engineer, P.W.D., Bellary to keep the channels from the growth of vegetation on the banks of the channels and levelling insanitary pits.

Report on ~~~~ antimalarial operation

Reference is solicited to paras 15-19 of the Report of the S. M. O. on antimalarial investigation in certain villages of Hospet taluk - Pp. 12-15 of Go. 1929 P.H of 5. 8. 1930. The P.T.B now states that in Hospet taluk which has been included in the scheme of free distribution of quinine the work of free distribution is done by the Health Dept etc. and apparently wants the Health dept etc to see to the wide spread distribution of quinine. As regards the maintenance of channels in a sanitary state he also has asked the P.D.B. to address the P. W. D authorities in the matter. Nothing has been said about the other recommendations e.g. shifting existing villages to site, well
